

“I’m Living Proof that AEDs Save Lives.”

“The last thing I remember was running after the basketball. My heart stopped beating. Lucky for me, paramedics arrived quickly. They started CPR and used an AED to bring me back to life.”

— Craig H.
AGE 15

Medtronic Physio-Control LIFEPAK® 500 AED

Sudden cardiac death claims 225,000 lives every year. It can strike anyone at any time, which is why an automated external defibrillator (AED) is essential in **every public setting**.

As the leading provider of health supplies, School Health Corporation offers AEDs that are easy to use and guide responders through each life-saving step. It’s the brand used in most emergency medical vehicles.

AED Implementation Manual Included. Every AED purchased through School Health includes the manual, *Public Access Defibrillation in Schools — Project ADAM™*, published by one of the leading heart centers in the United States.

AEDs save lives.

Shouldn’t your school be prepared?

To find out how, call School Health today.
