Mrs. Karen Acevedo School Health 865 Muirfield Dr Hanoverpark, IL 60133

Dear Mrs. Acevedo:

Thank you for contacting the Johnson & Johnson Consumer Companies, Inc. Information Center. It is always important to hear from our consumers, and we appreciate the time you have taken to contact us.

In compliance with the rules of the Federal Occupational Safety and Health Administration (OSHA), we provide Material Safety Data Sheets for all those products that require them. Since the particular product about which you are inquiring, our K-Y® Brand Jelly Personal Lubricant, NonSterile contains no hazardous materials, OSHA does not require a Material Safety Data Sheet for it.

Again, thank you for your interest in our company. Should you have any comments or questions in the future, please contact us via our website or by calling our toll-free number, 1-888-638-5242. Our specialists are available Monday through Friday between 8 AM and 5 PM EST and will be happy to assist you.

Sincerely,

Information Center
